ABOUT HACK THE CHAIN

HackTheChain is a 48-hour online hackathon, that brings together tech enthusiasts, developers, and entrepreneurs from all over the nation to create innovative solutions to some of the world's most pressing problems.

At HackTheChain, you'll have the opportunity to collaborate with like-minded individuals and work on cutting-edge projects that have the potential to disrupt industries and transform the way we interact with technology. Whether you're a seasoned developer or a beginner, HackTheChain is the perfect platform to showcase your skills and learn from industry experts.

This hackathon will have two tracks – Web3 based and open innovation. In the Web3 track, participants will be building blockchain-based projects using Web3 technology. In the open innovation track, participants are free to use any tech stack of their choice to build innovative projects. Join us and be part of the future of decentralized innovation!

OUR SPONSORS
